PROFESSIONAL SUMMARY

React Developer with 1.5+ years of experience developing scalable, responsive, and production-ready applications using React.js, Next.js, TypeScript, JavaScript, Redux Toolkit, and React Query. Strong in frontend architecture, reusable components, API integration, state management, performance optimization, and building data-driven user interfaces.

EDUCATION

- Jnan Vikas Mandal's Degree College** Navi Mumbai, India
Bachelor of Science - Information Technology; CGPA: 8.8 July 2020 - June 2023

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Responsive Design
State & Data: Redux Toolkit, React Query, Context API, REST APIs, WebSocket, API Integration
Frontend Engineering: Reusable Components, Custom Hooks, Performance Optimization, Lazy Loading, Debugging
Backend & Database: Node.js, Express.js, PostgreSQL, MySQL
Tools & Workflow: Git, GitHub, Hopscotch, Postman, VS Code, Chrome DevTools, Vercel, Agile/Scrum

EXPERIENCE

- Arcitech** Navi Mumbai, India
React Developer Aug 2025 - Present
 - Frontend Architecture & Development:** Develop scalable, production-ready applications using **React.js**, **Next.js**, **TypeScript**, **Redux Toolkit**, and **React Query**, building reusable components, responsive interfaces, and maintainable frontend workflows.
 - Production Modules:** Developed key business modules including **Marketplace**, **Admin Access/RBAC**, **Analytics & Charts**, **OCR/Document Processing**, **Voice Submission**, and **Assignment Management**, implementing complex user workflows and role-based functionality.
 - API Integration & State Management:** Integrated **25+ REST APIs** using **React Query** and **Redux Toolkit**, implementing data fetching, caching, mutations, asynchronous state management, error handling, and server-state synchronization.
 - Performance & Code Optimization:** Improved application performance through **memoization**, controlled re-renders, optimized API calls, **code splitting**, lazy loading, and reusable components, custom hooks, and shared utilities.
 - Real-Time, AI & Third-Party Integrations:** Implemented **WebSocket-based real-time functionality** and **AI-powered workflows**; integrated **GreythHR**, **Hubstaff**, **Google Meet**, **email**, and **calendar services** across application workflows.
 - Debugging & Production Delivery:** Diagnosed and resolved UI, API, state-management, performance, and integration issues using browser debugging and root-cause analysis, collaborating with product, design, backend, and QA teams through Agile sprints.
- Webtales IT Solutions Pvt. Ltd.** Navi Mumbai, India
Frontend Developer Intern Jan 2025 - Jul 2025
 - Frontend Development:** Built **responsive and interactive web interfaces** using **HTML5**, **CSS3**, **JavaScript**, **jQuery**, and **React.js**, translating business requirements into functional and user-friendly frontend experiences.
 - Modern UI Development:** Developed **reusable React components** and responsive layouts using **TypeScript** and **Tailwind CSS**, following component-based development practices to maintain consistency and code reusability.
 - Design-to-Code Implementation:** Converted **Figma** and **Adobe XD** designs into **pixel-accurate, responsive interfaces** while maintaining visual consistency, accessibility, and cross-browser compatibility across client projects.
 - UI Debugging & Optimization:** Identified and resolved **frontend bugs**, **layout issues**, and **browser inconsistencies** using systematic debugging and developer tools, improving interface reliability and overall user experience.
 - Team Collaboration:** Collaborated with **developers and designers** throughout implementation, testing, and feedback cycles to deliver frontend features within project requirements and timelines.

PROJECTS

- AI Interview Simulator** — **React.js**, **Next.js**, **TypeScript**, **React Query**, **AI APIs**, **Web Speech API**: Building an AI-powered interview platform with **speech recognition**, **audio recording**, **AI-generated feedback**, **interview evaluation**, and **personalized reports**, with responsive workflows and efficient API/state management.
- Expense Tracker** — **React.js**, **TypeScript**, **Express.js**, **PostgreSQL**, **REST APIs**, **Charts**: Developed a full-stack expense management application with **CRUD operations**, **REST API integration**, **transaction tracking**, **dynamic balance calculations**, and **interactive data visualization**.

ACHIEVEMENTS

Silver Club Certificate of Achievement: Recognized by Arcitech for consistent performance, contribution, and delivery across production projects.
